ENGINEERING INSTRUCTION

**SUPERSEDED BY EI 87-038
EFFECTIVE 1/28/88**

NEW YORK STATE DEPARTMENT OF TRANSPORTATION

JECT: SD 644-7 FOR OVERHEAD SIGN STRUCTURES

Subject Code: 7.27-0-644

Distribution:

30 Main Office

32 Regions

34 Special

Code: EI 87-17

Date: 6/17/87

APPROVED:

R. H. EDWARDS, Facilities Design Div., Deputy Chief Engr.

Supersedes:

Supplements EI 83-4
1-19-83

SD sheet 644-7 was issued by EI 83-4 dated January 19, 1983. Although this design has been employed successfully for numerous years, it does not conform to the current American Institute of Steel Construction code or the American Association of State Highway and Transportation Officials. Because of this, SD 644-7 was modified by increasing the dimensions for the O.D. of the base plate (see second column in table entitled "Type D Bases") and a new mylar is being reissued to reflect these changes.

This new sheet shall replace SD 644-7 dated January 1983 and be used in all jobs having pay item numbers 644.01 through 644.05. This instruction takes effect with the letting of October 29, 1987.
