APPROVED:

Joseph M. Yourno

Joseph M. Yourno, Director, Design Bureau

This Engineering Instruction amends the Note found in Chapter 2 - "Consultant ROW Mapping Services" on page 41 of the February 1988 "Right-of-Way Mapping Procedure Manual".

The revised note defines when it is necessary to do mapping on a CADD system. This revision is as follows:

NOTE: Consultant will be required to meet schedule on all events and activities for the project. Refer to NYSDOT Computer Aided Management Systems (CAMS) for current schedule. The Consultant is also required to do all mapping on a CADD system when the project itself is being progressed on CADD. At the completion of the CADD project an electronic tape compatible to NYSDOT CADD system will be delivered to Region.
