Title: HIGHWAY DESIGN MANUAL REVISION NO. 24 CHAPTER 12 HIGHWAY LIGHTING			
Distribution: <input checked="" type="checkbox"/> Main Office(30) <input checked="" type="checkbox"/> Local Gov.(31) <input checked="" type="checkbox"/> Regions(32) <input type="checkbox"/> Contractors/AGC(39) <input checked="" type="checkbox"/> Consultants(34) <input type="checkbox"/> _____ ()	Approved:  Philip J. Clark, Deputy Chief Engineer Design Division		<p style="text-align: center; font-size: 1.2em;"><u>8/4/95</u></p> Date

Chapter 12 of the Highway Design Manual (HDM) has been revised. It should be used to progress projects initiated after September 1, 1995, or with a design approval date after January 1, 1996. Regions are also encouraged to utilize the chapter for projects with earlier design approval dates.

This chapter updates the guidance on permanent highway lighting design and has been metricated. The entire existing chapter should be replaced with the new chapter dated August 4, 1995.

Rather than repeat all of the detailed information in the guides, handbooks and standards which have been published by the lighting industry and various governmental agencies, this chapter provides an overview of permanent highway lighting design which is consistent with these publications and refers to them as necessary. However, Regional experience and Department policy is stated where it may differ from the guidance presented in these other publications.

Revision 24 will be distributed separately and contains new Contents pages and an Index for the entire HDM. Consultants and others who are required to purchase the HDM may purchase Revision 24 by sending a check or money order for \$3.50 payable to the New York State Department of Transportation at the following address:

Plan Sales Unit, Bldg. 5, Rm 109
 New York State Department of Transportation
 W. Averell Harriman State Office Building Campus
 1220 Washington Avenue
 Albany, N.Y. 12232

Project specific assistance regarding this revision should be referred to the appropriate liaison engineer in the Design Quality Assurance Bureau. General questions regarding this revision should be addressed to Norman Schips of the Design Quality Assurance Bureau. He may be reached at (518) 485-8611.
