This Engineering Instruction supersedes EI 79-44, 80-25, 81-29, 84-46 and a portion of 82-71.

Effective immediately, the attached Bridge Design Data (BDD) Sheets supersede BDD 79-10, 11, 12, 13, 14, 15, 80-18, 81-44, 44A, 82-45, 46 and 84-106.

These sheets represent the current practice for shoulder drainage and approach details; attaching box beam guide railing to four rail steel railing; protective screening on steel bridge railing and concrete bridge barriers; mounting G4S Guide Rail on existing two rail steel bridge railing; three rail steel bridge railing and pylons; and concrete barrier transition to highway box beam shoulder treatment. Metric versions are also included.

Questions concerning these drawings should be directed to Larry N. Johanson of the Structures Division's Region Design Support Section at (518) 457-2459.
