NEW YORK STATE DEPARTMENT OF TRANSPORTATION

SUBJECT: CHANGE IN ASPHALT CEMENT GRADE
ON ONGOING CONTRACTS

Subject Code 7.30

Distribution

All State Offices

Regional

Section

Case No. EB 80-18

Date 7/21/80

Supervisor

APPROVED

JACK STERNBACH, Deputy Chief Engineer (Construction)

This Engineering Bulletin Expires _____

Engineering Instruction 80-14 calls for the incorporation of new asphalt cement grade specification. When requests for the asphalt cement substitution are approved, it will not be necessary to prepare an Order-on-Contract for the change. This Bulletin will serve as proper documentation that an approved substitution is allowed. Therefore, the project file should include a copy of this Bulletin.
