FOR K. W. SHIATTE, DEPUTY CHIEF ENGINEER FOR CONSTRUCTION

This Engineering Bulletin Expires _____

Form CONR 314 - Analysis Record For Partial Payments incorporates a 75% limit on the material cost for structural steel on Line 8. The last Standard Specification Book to include the 75% limit was the 1981 edition, from which it was deleted by Addendum No. 1 dated December 9, 1982.

Since no current construction contract includes the 75% limitation on structural steel, Line 8 on the CONR 314 (8/75) is not applicable and must not be used. A forthcoming revision to Form CONR 314 will reflect this change.
