O'CONNELL Date Deputy Chief Engineer (Structures)	

EFFECTIVE DATE:

This Engineering Bulletin is effective immediately.

PURPOSE:

This EB rescinds the last of the Bridge Design Data Sheets (BDD's) for armored joint systems with compression seals at piers and abutments. These BDD's had been kept active to allow for a transition period from English to Metric Contract Plans and are no longer needed.

This EB also issues a current index of all Structures Division standard details.

ISSUANCES AFFECTED:

This EB rescinds EI 95-036 and supersedes EB 97-044.

This EB rescinds BDD 95-61, 95-62 and 95-63.

ATTACHMENTS:

Attached is a current index for each of the Structures Division issuances:

1. Bridge Design Data Sheets (BDD's)
2. Guideline Drawings (GLD's)
3. Bridge Detail Sheets (BD's)

CONTACT:

Any questions regarding this EB should be directed to the Design Section of the Structures Division at (518) 457-4453.
