Title: **Superseding Outdated Engineering Instructions**

Distribution:

☒ Manufacturers (18) ☒ Surveyors (33)
☒ Main Office (30) ☒ Consultants (34)
☒ Local Govt. (31) ☒ Contractors (39)
☒ Regions/Agencies (32) ☐ _____ ( )

Approved:

Kenneth C. Hahn, EIIS Administrator — Date: 07/26/99

The continuing review of Engineering Instructions by the Design Quality Assurance Bureau has identified three obsolete EIs that are listed as current in our database. These EIs contain outdated material. This Engineering Bulletin is effective immediately and future versions of the EIB program will reflect the following changes.

EI 88-042 "Combined Road Plan"
Per DQAB: This EI is obsolete. It was superseded by the July 1994 *Design Procedure Manual,* which was announced by EB 94-036.
EI 88-042 will be shown as: Superseded by EB 99-019.

EI 94-032 "Savings Analyses"
Per DQAB: This activity is now considered unnecessary. The benefit to cost ratio has decreased to the point where it is no longer efficacious to perform Savings Analyses.
EI 94-032 will be shown as: Superseded by EB 99-019.

EI 96-016 "Corrugated Metal (Steel and Aluminum) Pipe and End Sections
Per DQAB: This EI disapproved various §602 and §603 metric pay items and approved other §602 and §603 items. The *EEMS Specifications Catalogue Addenda* contains these metric pay items.
EI 96-016 will be shown as: Superseded by EB 99-019.

Questions regarding this Engineering Bulletin should be directed to Lois Groskopf in the Design Quality Assurance Bureau at [518] 457-5597.
