This Engineering Bulletin supersedes EBs 99-060, 99-083, 00-004 and 00-005. It is effective immediately.

It is the policy of the Engineering Information Issuance System (EIS) Administrator to issue, by Engineering Bulletin, a revised index after new or revised Standard Sheets are issued. When an EB with an index is issued, it notes which issuances it supersedes. The Standard Sheets attached to the superseded issuances stay in effect unless specifically noted as revised/superseded.

The latest change(s) include(s):

<b>New or Revised Metric Standard Sheets:</b>

*NOTE: Standard Sheet M203-6 (issued by EB 99-082) was replaced by Standard Sheet M203-6R1 (issued by EB 00-004) before a Metric Standard Sheet Index could be issued. Therefore, Standard Sheet M203-6 never appeared in an Index.*

Attached is the Metric Standard Sheet Index, dated 01/31/00, with the latest changes highlighted. The attached 11" x 17" sheet is a replacement for the previous Index in the Metric Standard Sheet book.
