<i>Expires one year after issue unless replaced sooner</i>			
<b>Title: INSTALLATION DETAILS FOR GRANULAR FILL SLOPE PROTECTION - STANDARD SHEET M203-3R1 AND CONTROLLED LOW STRENGTH MATERIAL (CLSM) INSTALLATION DETAILS - STANDARD SHEET M204-1</b>			
Distribution: <span style="float: right;">1303</span> <input checked="" type="checkbox"/> Manufacturers (18) <input checked="" type="checkbox"/> Surveyors (33) <input checked="" type="checkbox"/> Main Office (30) <input checked="" type="checkbox"/> Consultants (34) <input checked="" type="checkbox"/> Local Govt. (31) <input checked="" type="checkbox"/> Contractors (39) <input checked="" type="checkbox"/> Regions/Agencies (32) <input type="checkbox"/> _____ ( )	Approved:  <div style="text-align: center;">   <hr/>         Robert L. Sack, Acting Deputy Chief          Engineer, Technical Services Division       </div> <div style="text-align: right;"> <b>13 FEB 02</b>          Date       </div>		

**ADMINISTRATIVE INFORMATION:** This Engineering Bulletin (EB) is effective with projects submitted for the letting of July 11, 2002. It does not supersede any previous issuances.

**PURPOSE:** To issue Standard Sheets M203-3R1 and M204-1 which supersede and replace Standard Sheets M203-3 and M203-6R1, respectively.

**TECHNICAL INFORMATION:** Per EI 02-005, pay item 203.01 - Unclassified Excavation and Embankment is eliminated. All references to pay item 203.01 must be deleted from Standard Sheet M203-3 necessitating its reissue as Standard Sheet M203-3R1.

EI 02-005 also adds the new Section 204 - Controlled Low Strength Material (CLSM) to the Standard Specifications and deletes Special Specification pay item 17203.80 - Controlled Low Strength Material (CLSM). A new pay item, 204.01, was created for Controlled Low Strength Material (CLSM). This requires the altering of Standard Sheet M203-6R1 and its re-issuance as Standard Sheet M204-1.

**TRANSMITTED MATERIAL:** Standard Sheets:

M203-3R1 INSTALLATION DETAILS FOR GRANULAR FILL - SLOPE PROTECTION

M204-1 CONTROLLED LOW STRENGTH MATERIAL (CLSM) - INSTALLATION DETAILS FOR CIRCULAR AND ELLIPTICAL CORRUGATED METAL PIPES, STRUCTURAL PLATE PIPES AND PIPE-ARCHES, AND REINFORCED CONCRETE AND OTHER "RIGID" PIPES
