<p>TO:</p> <p>Director, Preliminary Plan Review Bureau</p> <p>SUPERSEDED BY EB 00-009 EFFECTIVE 1/24/2000</p>	<p>ENGINEERING INSTRUCTION</p> <p>NEW YORK STATE DEPARTMENT OF TRANSPORTATION</p>
<p>Distribution: <input checked="" type="checkbox"/> Main Office <input checked="" type="checkbox"/> Regions <input type="checkbox"/> Special</p>	<p>Code: <u> EI 77-24 </u></p>
<p>APPROVED:</p> <p style="text-align: center;"><i>Lyndon H. Moore</i></p> <p style="text-align: center;">LYNDON H. MOORE, DIRECTOR, SOIL MECHANICS BUREAU</p>	<p>Date: <u> 5/18/77 </u></p> <p>Supersedes: EI 74-73 </p>

Effective immediately, Soil Control Procedure SCP-4/77, "Static Pile Load Test Manual," dated April 1977, shall be used on all projects requiring a static pile load test. This manual supersedes the SCP 4/74 issuance of 8/7/74.

The new manual incorporates major revisions to the sections on load application systems, test procedures, and certifications, and minor revisions or additions to all other sections. Special or modified procedures for pile load testing at a specific project site will be shown on the plans or given in the special notes.

Copies of the revised manual may be obtained on request from the Soil Mechanics Bureau or the Regional Offices.
