TO: ALL REGIONAL DIRECTORS Director, Preliminary Plan Review Bureau	 ENGINEERING INSTRUCTION NEW YORK STATE DEPARTMENT OF TRANSPORTATION
Distribution: <input checked="" type="checkbox"/> Main Office <input checked="" type="checkbox"/> Regions <input type="checkbox"/> Special	SUBJECT: JOB CONTROL SAMPLING AND TESTING CONCURRENT WITH PROGRESS RECORD SAMPLING, ITEMS 2UF & 4 Subject Code: 7.27-1 - Items 2UF & 4
APPROVED:  Deputy Chief Engineer (Construction)	Code: <u>EI-72-54</u> Date: <u>5/26/72</u> Supersedes:

In order to comply with FHWA PPM 20-6.2, issued on April 4, 1972, the following is to take effect immediately.

Whenever a progress record sample is taken of either Items 2UF or 4 by record sampling personnel, a sample of the same item from the same area shall be taken concurrently and tested by project personnel. The results of the sampling and testing by the project personnel shall become part of the project records but shall not be used to reject material from approved stockpiles.

Approval of stockpiled granular materials shall continue to be based upon job control samples and tests in accordance with the SOIL CONTROL PROCEDURE SCP-1 issued by the Soil Mechanics Bureau. The purpose of the progress record samples and the samples requested by this Instruction is to provide an independent spot check on the reliability of the results obtained in job control sampling and testing.

This Instruction in no way changes any of the requirements or procedures stipulated in SCP-1.
