APPROVED: <u><i>Robert H. Edwards</i></u>		Supersedes: EI 76-058 DATE 8/27/76	

We are transmitting under separate cover the following revised Standard Sheet.

655-8R4 Parallel Bar Type Grates & Frames

The new Standard Sheet supersedes Standard Sheet 655-8R3 issued by EI 76-58. The only change from the standard superseded is the reduction of the maximum spacing of the transverse bars from 8" to 4".

This standard will be used on all projects with parallel bar type grates and frames commencing with the February 1, 1979 letting.
