ADMINISTRATIVE INFORMATION:

- This EI is effective immediately.
- This EI does not supersede any previous issuances.
- The Standard Specification revisions issued with this EI will be incorporated into the next update of the Standard Specifications.

PURPOSE:

This EI issues revisions to the Standard Specifications of January 2, 2002.

TECHNICAL INFORMATION:

This revision deletes paragraph §102-10F *Worker Notices* and a reference in paragraph §102-10E *Public Notices* as the NYS Department of Labor has eliminated the requirement to distribute such notices. The NYSDOL stopped providing the required wallet cards and signature sheets several years ago, yet the requirement remained a part of Department of Transportation Standard Specifications.

Make the following changes to §102-10, *Labor and Employment* shown in shelf note "Revisions to Standard Specifications Section 100 - Phase 4", issued via EI 03-006. **Delete** paragraphs §102-10E. and §102-10F. and **Replace** with the following:

"E. Public Notices. The Contractor shall post, in a location approved by the Engineer, a copy of the NYSDOL schedules of prevailing wages and supplements for this project, a copy of all redeterminations of such schedules for the project, the Workers' Compensation Law Section 51 notice, all other notices required by law to be posted at the site, and all other notices which the Engineer directs. The Contractor shall provide a surface for such notices which is satisfactory to the Engineer. The Contractor shall maintain such notices in a legible manner and shall replace any notice or schedule which is damaged, defaced, illegible or removed for any reason. The Contractor shall post such notices before commencing any work on the site and shall maintain such notices until all work on the site is complete.

F. (VACANT)"

IMPLEMENTATION:
