

TO: <b>SUPERSEDED BY EB 80-003 EFFECTIVE 1/30/80</b>	<b>ENGINEERING INSTRUCTION</b>	
	NEW YORK STATE DEPARTMENT OF TRANSPORTATION	
	SUBJECT: HEAVY POST BLOCKED-OUT CORRUGATED BEAM GUIDE RAILING AND MEDIAN BARRIER	
	Subject Code: 7.27-2-606-8-9-10	
Distribution:	<input checked="" type="checkbox"/> Main Office	<input type="checkbox"/> Regions <input checked="" type="checkbox"/> Special
APPROVED:	Code: <u>EI 79-48</u>	
 Deputy Chief Engineer (Facilities Design)	Date: <u>11-15-79</u>	
	Supersedes: EIs 77-32 & 78-35	

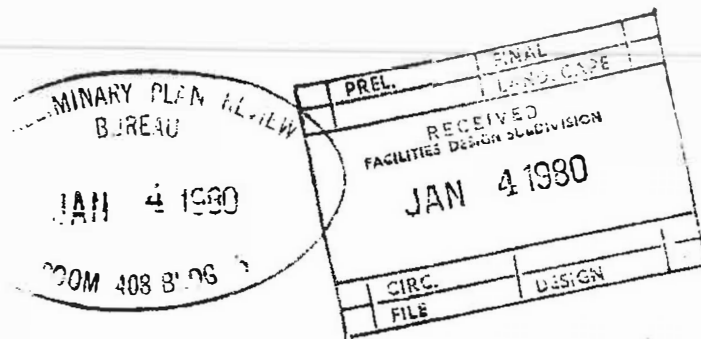

We are transmitting, under separate cover, copies of the following revised standard sheets.

- 606-8R1 Heavy Post Blocked-Out Corrugated Beam Guide Railing (Sheet 1 of 2)
- 606-9R1 Heavy Post Blocked-Out Corrugated Beam Guide Railing (Sheet 2 of 2)
- 606-10R1 Heavy Post Blocked-Out Corrugated Beam Median Barrier

These new standard sheets supersede Standard Sheets 606-8, 606-9, 606-10, and 606-11. Standard Sheets 606-8, 606-9 and 606-11 were issued by EI 77-32 and 606-10 was issued by EI 78-35.

We have revised the hardware details to conform with the latest national standard for G4S and MB4S guide rail systems, completely rearranged the standard sheets to clarify the terminal details, shown options for the C 9 x 20 and the W 6 x 8.5 shapes, as they are difficult to obtain, and added two new notes restricting the use of the median barrier terminal.

These new standard sheets shall be used on all projects with Heavy Post Blocked-Out Corrugated Beam Guide Railing and/or Median Barrier commencing with the lettings of March 20, 1980.
