M. Tegza, Director, Final Plan Review Bureau

Item 15558.50 - Membrane Waterproofing System for Structural Slabs

This Special Specification has been a M.O. insert into proposals since 12/5/1978. Recently it has been revised to reflect some minor material section changes, which will not require a "re-numbering" or a change in "title". The material change was to change Royston 10 to 10-A and under construction details to establish some new handling procedure.

Upon request we will send a copy of this new version to you.
