Code: EI 83-46

Date: 10/31/83

APPROVED:

R. H. EDWARDS, Deputy Chief Engr., Facilities Design Division

Supersedes:

Whenever an automatic sprinkler system for fire control is included in a contract, a separate pay item should be provided for this work, including associated piping and control systems. This will enable bidders to readily identify this specialty work.

Also, when the PS&E is submitted, include a statement in the transmittal memo to alert the Final Plan Review Bureau so they can request minimum wage rates for the appropriate labor classifications.
