EFFECTIVE 12/1/86**

ENGINEERING INSTRUCTION

NEW YORK STATE DEPARTMENT OF TRANSPORTATION

SUBJECT: BRIDGE DESIGN MANUAL
STANDARD SPECIFICATIONS FOR
HIGHWAY BRIDGES

Subject Code: 7.35-1

Distribution:

Main Office

Regions

Special

Code: 84-4

Date: 1/26/84

APPROVED:

J. V. Hurigan

Deputy Chief Engineer (Structures)

Supersedes:

Effective immediately, pages NY 191 and NY 234 shall be deleted from the April 1979 New York State Standard Specifications for Highway Bridges. These two pages, which revise the first equations in Acts. 1.7.46 and 1.7.70 of the 1977 AASHTO Standard Specifications for Highway Bridges, are incorrect. Subsequently, the equations in Acts. 1.7.46 and 1.7.70 of the AASHTO Standard Specifications shall be considered part of the New York Standard Specifications for Highway Bridges.

The blue sheet containing page NY 191 shall be removed from the New York State Standard Specifications. Page NY 234 shall be noted as deleted, but not removed as its blue sheet also contains page NY 235 which remains. This sheet will be reprinted along with the next scheduled update of the New York State Standard Specifications.

This Engineering Instruction partially replaces material issued under E.I.'s 79-15 and 84-1.
