	SUBJECT: TRANSVERSE JOINT SUPPORT STANDARD SHEET 502-9 Subject Code: 7.27-2-502-9	
Distribution: 30 Main Office 32 Regions 34 Special	Code: 85-15 Date: 2/20/85 Supersedes: EI 76-56	APPROVED:  R. H. EDWARDS, Deputy Chief Engineer (fac. Design Div.)

Effective with the letting of May 9, 1985 Standard Sheet 502-9 Transverse Joint Support issued by EI 76-56 is rescinded and designers should no longer include that sheet in their PS&E's.

The information contained on Standard Sheet 502-9 will now be on an approved drawing referenced in the Department's Approved Lists for Approved Transverse Joint Supports. The availability and procedures for Materials Details for Transverse Joint Systems will be as outlined in EI 83-3 and Materials Method - N.Y. 25.

Materials Method - N.Y. 25 requires the material supplier to provide the approved Materials Details for their product to the Engineer at the project site. Verification of the correctness of these details, if necessary, is possible with reference sets available in the Regional office of the Construction and Materials Engineer. Approved manufacturers were included in EI 84-41, Materials Details for Transverse Joint Systems.

The Standard Specifications of January 2, 1985 also makes reference to this standard sheet. Therefore, we prepared a Special Note (see back) to modify the several areas of the standard specifications.
